## Enhancing And Integrating Your Therapy With Forensic Healing Secrets

Marisa Russo  
Founder

Known as the 'Sherlock Holmes' of healing

25 years of constant exploration and evaluation produced the new Forensic Healing System - the deepest and most life-changing healing experience releases pain, trauma and stress fast... and you can experience it today

Originally, Marisa travelled the world looking for relief from her own never-ending pain, chronic fatigue and childhood abuse. She tried many different therapies - 60

healing courses and \$300,000 later she found she possessed a gift. Through clearing her own condition, her energetic connection had grown so strong that she could read a person's body to accurately determine the

cause of their condition and know how to bring relief. After working with thousands of clients over the years, Marisa knows the mind set, the healing processes and techniques that really work to help people heal.

- Discover a proven new healing system
- Ancient and contemporary natural healing techniques and secrets
- Use a structure during your healing sessions
- Achieve excellent results with clients
- Enjoy lots of hugs from grateful clients
- Enhance your existing healing abilities
- Begin your career as a holistic healer
- Access spontaneous healing forces

### How the Forensic Healing System Works

The Forensic Healing System was inspired by the thorough approach forensic scientists use when investigating a crime scene. We teach biofeedback methods (like kinesiology muscle testing) to read the body and answer questions of interest about any life problem. Accurate identification of the cause in detail exposes it, so it is naturally released. The more detail obtained, the deeper the resultant healing. The process rapidly establishes the cause of a condition and heals the negative impact of the past.

In essence, Forensic Healing involves profiling patterns, collecting evidence about a condition, analysing the evidence and reconstructing the whole story to determine the cause, beliefs, thought and behavior that has damaged the intelligence of the DNA - the blueprint of life in every cell. Marisa has found that the core problem in all conditions is

damaged DNA. Identifying the cause of damaged DNA allows specific healing vibrations to be targeted for reconnecting and realigning the DNA.

**Forensic Healing System:**  
The simple to follow, structured holistic healing system that allows you to integrate what you know along with new and powerful healing pathways

### Five Courses Within The Forensic Healing System

includes Principles, Energy, Physics, Emotions and Spirit. Here's a summary of each course...

**Pr FHS Principles** Learn biofeedback methods and the Forensic Healing System structure - profiling clients, collecting and analysing evidence about a condition, reconstructing a client's story to identify cause, recycling evidence and a range of healing corrections.

**En FHS Energy** In this advanced course you will work with the personal energy/meridian systems in great detail. New and targeted analysis, detail scan lists and healing corrections will create opportunities to provide deep and profound healing.
